

# EPOXONIC® 361

Highly flexible potting compound  
for Automotive Engineering  
and Microelectronics

EPOXONIC® 361 is a solvent-free potting compound based on epoxy resin.

## Main characteristics:

- Heat resistance to 150 °C
- Thermal shock resistance
- Flexibility
- Long pot life
- Optionally available as 1-part system („Frozen product“)

## Application:

EPOXONIC® 361 is especially suited for low stress potting of pressure sensitive electronic devices (e.g. inductive components, sensors).

## Properties:

Specific values measured by standard test specimen at 23 °C, cured 1 h / 150 °C.

Operating temperature	-40 °C to +150 °C	
Colour	black	
Shore hardness	45 - 55 Shore A	DIN EN ISO 868
Density	1.1 g/cm <sup>3</sup>	DIN EN ISO 1183-1
Glass transition temperature (DSC)	-50 °C to -40 °C	DIN EN ISO 11357-2
Water absorption	1.7 % at 23 °C (saturation)	DIN EN ISO 62
Tensile strength	1.0 MPa	DIN EN ISO 527
Elongation at break	70 %	DIN EN ISO 527
E-modulus	2.8 MPa	DIN EN ISO 527

## Processing:

Mix ratio	Part A : Part B = 100 : 210 parts by weight	
Viscosity cone/plate viscometer	25 °C	2,000 – 4,000 mPas (Part A)
	25 °C	7,000 – 11,000 mPas (Part B)
	25 °C	6,000 – 9,000 mPas (Mixture A + B)
	40 °C	2,000 – 3,000 mPas (Mixture A + B)
	60 °C	500 – 1,000 mPas (Mixture A + B)
Pot life (100g)	25 °C	> 20 h (time to double viscosity)
	60 °C	3 h
Method of application	e.g. dispenser	
Cure schedule	e.g. 4 h / 120 °C or 1 h / 150 °C Optimum cure schedules have to be determined by the specific application.	

## Storage:

The shelf life of EPOXONIC® 361 Part A and Part B is 6 months at temperatures < 25 °C when stored in tightly closed, original containers. Part B can crystallize. In this case the whole container has to be heated to 60°C until content is completely liquefied and then homogenized again. Partly emptied containers of Part A and Part B should be tightly closed immediately after use.

The shelf life of EPOXONIC® 251 as 1-Part-system is 9 months at temperatures < -20 °C when stored in tightly closed, original cartridges.

## Packaging:

Packaging options are available upon request.

## Health and Safety:

Recommended industrial hygiene procedures should always be followed when handling this product. Please refer to the corresponding Material Safety Data Sheet for details.

## Quality Assurance:

If required EPOXONIC® 361 will be supplied with a Certificate of Analysis.
